

学计算机科学与技术专业感到真命苦怎么办？

<https://www.zhihu.com/question/597791556/answer/3052436282>

学的真的已经心力憔悴了，一周七天，6天都在熬夜，现在在弄毕业论文，马上6月份即将毕业，以后再也不碰跟计算机相关的任何专业。

学习Berkeley+的CS61A+,B,C 吧,打通计算机的任督二脉.

cs61a 结课时候的语录:

尝试去寻找那个incredible gift:

1.

u wake up every day,

and do the things that you fullfiling

that u r good at

that u r excited about

and btw to somebody to pay u to do them

2.

don`t compare

try to understand it in many fields .

and iterate the understand

比较会产生价值观

为什么 ta 可以认为somebody else `s thing is absolutely meaningless with myself

what i have done .

what i gonna do next

how i spent my time

focusing on improve myself , and forget about what everybody else
